18 September 1951

STATINTL

I just received your letter of September 12th together with your letter of the same date to Mr. Walter Wolf and have gone over both of them very carefully.

It would be impossible to guarantee you a position with CIA at some future date, inasmuch as the date itself would be so indefinite and it would be impossible to know what the requirements would be then. However, the fact that you have decided not to take a position at the present time would not militate against any future application you might make after completion of your law course.

STATINTL

I hope everything goes well with you at Harvard Law School. I have a son, [REDACTED], who is now beginning his third year and perhaps you will run across one another.

Please give my regards to your father, whom I know well and admire greatly.

Sincerely yours,

F. TRUBEE DAVISON  
Assistant Director
